DISCRIPTORS: *Scheduling. Theory.

The axiom system of plane projective geometry is dual
of itself in the sense that it is transformed into itself by exchange
of the notions "point" and "line". It follows that for
every theorem the dual sentence is also a theorem.
However, from the duality of the axiom system one
cannot conclude that in a model the truth of a sentence
implies that of the dual sentence; even less can one
conclude that each model admits a 1-1 transformation
(Mathematical, TT, v. 6, no. 1) (over)
